

TECHNOLOGY, LAW AND POLICY:

A Training Workshop for NH Administrators, School Board Members and Tech Directors

March 3, 2010 –CR Sparks Event Center, Bedford, NH

8:55 A.M. TO 2:30 P.M. (Check in begins at 8 a.m.)

We encounter issues daily involving the use and abuse of technology that have substantial implications for the supervision and education of students and the management of school staff. That is why it is important for board members and administrators who are involved in making policy and rules and enforcing them, as well as tech directors, to keep abreast of the issues addressed in this workshop.

This practical workshop will address the most current issues schools face due to the digital revolution, both inside and outside of schools. Topics will include:

- Social networking – Student and staff issues; boundaries
- School Board use of e-mail and New Hampshire’s Right to Know Law
- Cyberbullying and the role of the school
- Using the Web to get the school’s message out
- Legal liabilities due to inadequate management of student and staff use of technology
- The intersection between freedom of speech and digital communication
- Regulation of handheld devices
- Updated computer use policies for staff and students
- Digital record retention

Presenters for this important workshop will be

Attorneys Bruce Smith, Matt Upton, Mark Paige and Policy Consultant Ann Chapman.
